Important Notice

It is absolutely imperative that you ensure this cabinet and aquarium is installed upon level flooring. It is also a prerequisite that you ensure the flooring upon which it is positioned is able to support the weight of this aquarium which could be up to **600kg** including water and decorations.

Installation upon uneven flooring will result in poor distribution of weight. Damages to the aquarium, cabinet or equipment and damages caused by leaks due to improper or uneven installation are not covered by the guarantee with this product.

Care and Maintenance of your Aqua One Aquarium

Glass: It is recommended that you use a good quality glass cleaner and a non abrasive lint free cloth. Glass cleaner should only be used on the outside of the aquarium.

To clean the glass on the inside of the aquarium, it is recommended that you use an Aqua One Scraper or Magnetic Cleaner (available from your local Aqua One dealer).

Cabinet and Hood: The use of a damp cloth is recommended, do not use any detergents or harsh chemicals to clean the cabinet and hood as damage may occur.
