ReefSkim Protein Skimmer

Aqua One ReefSkim Protein Skimmers are designed to easily and effectively remove organic waste from aquarium water. The needle wheel impeller increases the contact area maximising efficiency. Simple, accurate control allows you to adjust the output quickly and easily. The result is cleaner, clearer water and healthier aquarium inhabitants.

Suitable for Marine

Features & Benefits:

- Needle wheel impeller reduces the bubble size which creates higher surface area for collection of organic waste.
- Energy efficient with lower power consumption.
- Effectively removes organic waste.
- Easy and accurate flow adjustment.
- Small footprint leaving plenty of room for other equipment in the sump.
- Integrated skimmer drain allowing you to drain waste directly into a separate container.
- Available in 2 sizes.
- 2 year guarantee.

Products to suit this range:

The Aqua One Aqua Lube maximises the life of o-rings and moving parts within aquarium equipment. The Aqua Lube helps lubricate o-rings and impeller shafts to help them last longer and to prevent them from becoming stuck or dry.

Warnings & Disclaimers:

- Read and follow all safety instructions and important notices regarding this product.
- Do not use the appliance for reasons other than the intended use. The use of attachments that are not recommended or sold by the manufacturer may cause the product to be unsafe and should be avoided.
- Never clean any skimmer components with detergents or any other household cleaning products. Only use products designed for marine aquarium use.
- Use non-abrasive materials to clean the surfaces, especially the internal components of the pump and the interior of the skimmer body. Scratches on these surfaces can dramatically reduce performance.
